## New Publication- Motor and Work Injury Insurance by Poh Chu Chai

This book covers the law relating to motor and work injury insurance applicable in Singapore and Malaysia. The objective of this book is not an attempt to provide a simplified version of the law but to give the reader an authoritative and well-researched text based on actual legal principles. There is a growing need for lawyers as well as non-lawyers to find the relevant law applicable to Singapore and Malaysia quickly and reliably and this task is ever so daunting since the only sources of the law are to be found in the primary materials. It is the author's hope that this book will make the law that much more accessible to all who need to access the law, lawyers as well as non-lawyers.
