DAY 1, 10 April 2014 (Thursday)

Venue: Changi Ballroom, Level 4

Dress Code: Office Attire

08:30-09:00 Registration

09:00-09:10 Welcome Remarks

Associate Professor Mely Caballero-Anthony
Head
Centre for Non-Traditional Security Studies
S. Rajaratnam School of International Studies
Nanyang Technological University, Singapore

09:10-09:30 Introductions and Setting the Context:
How does community resilience inform and contribute to human security?

Ms Sofiah Jamil
Adjunct Research Associate
Centre for Non-Traditional Security Studies
S. Rajaratnam School of International Studies
Nanyang Technological University, Singapore

09:30-09:45 Teabreak/Group Photo

09:45-11:00 Session I

Housing Infrastructure and Urban Planning

With housing issues making the urban poor more vulnerable in times of disaster, this session seeks to examine issues and trends at the household and community level that feed into improving the quality of life in urban areas, with a critical look into the value of urban planning for both community resilience and human security.

Moderator:

Dr To Kien
Senior Research Scientist
Singapore University of Technology and Design

09:45-10:00 Housing by People in Thailand: From National Policy to Empowerment

Dr Nattawut Usavagovitwong
Director
Center for Integrated Socio-Spatial Research (CISR)
Sripatum University
Bangkok, Thailand

10:00-10:15 Promoting Community-Based Initiatives toward Secure and Safe Settlements in Metro Manila

Arch. Arlene Christy Lusterio
Executive Director
TAO-Pilipinas, Inc.
Potential Climate-Change Related Vulnerabilities in Large Cities in Java's North Coast Region: Implication for Urban Development Planning

Prof Dr Tommy Firman
Institute of Technology
School of Architecture, Planning, and Policy Development,
Bandung, Indonesia

Discussant

Dr Lai Choo Malone-Lee
Director
Centre for Sustainable Asian Cities
National University of Singapore

Q & A

Session II
Transportation Systems and Infrastructure: Accessibility and Movement

Moderator:

Prof Koh Kheng Lian
Honorary Director
Asia Pacific Centre for Environmental Law
National University of Singapore

This session focuses on an efficient and accessible public transport system as a necessary element in ensuring urban sustainability and in securing access to goods and services in times of complex humanitarian emergencies and disasters. This session also seeks to shed light on the challenges of building resilience through the introduction of a city wide public transport system, the stakeholders that are involved, and the impacts of transportation infrastructure projects on small players in the business and the informal economic sector.

Mainstreaming Universal Access - Making Transport Inclusive

Ms Katja Schechtner
Urban Mobility Expert
Asian Development Bank

Adaptive urban transportation

Dr Lynette Cheah
Assistant Professor
Engineering Systems and Design Pillar
Singapore University of Technology and Design

TBA

Ms Kem Monovithya
Deputy Director, Public Affairs
Member, Permanent Committee
Cambodia National Rescue Party

Discussant

Associate Professor Gopinath Menon
Adjunct Associate Professor
Division of Infrastructure Systems and Maritime Studies
Session III
Public Utilities and Services: Urban Governance and Community Adaptation

Moderator:

Dr Jonatan Lassa
Research Fellow
Centre for Non-Traditional Security Studies
S. Rajaratnam School of International Studies
Nanyang Technological University, Singapore

This panel will examine issues relating to providing and sustaining access to public utilities such as water, electricity and sanitation. What have been the challenges in promoting initiatives such as privatization, public-private partnerships and viable technologies to further community resilience, whether in times of disasters or for long-term adaptation?

Informality, Resilience and Disaster Governance: Lessons from failures and successes in Mumbai

Professor Devanathan Parthasarathy
ICCR Chair Professor of Indian Studies
Visiting Professor
South Asian Studies Programme
National University of Singapore

Empowering Local Communities for Climate Change Adaptation: Lessons from Evolving Urban Governance in Ulaanbaatar

Dr Bharat Dahiya
Visiting Fellow
Faculty of Architecture
Chulalongkorn University
Bangkok, Thailand

Harnessing crowd-sourced urban data gathering and making information accessible to improve public services and promote community resilience

Mr John Taylor
Founder and Director
Yayasan Kota Kita (Our City Foundation)
Solo, Indonesia

Discussant

Mr Sean Tan Eu Chong
Chief Operating Officer
Singapore Office Leader
The Good Water Company
Session IV
Health systems in disaster and conflict situations

Moderator:

Associate Professor Mely Caballero-Anthony
Head, Centre for Non-Traditional Security Studies
S. Rajaratnam School of International Studies
Nanyang Technological University, Singapore

This session discusses the impact of both disasters and conflict situations on health systems at the community and city level. It aims to deliberate on the challenges are common and what sets responses apart to public health emergencies and non-emergency health care provision and come up with best practices that can be replicated to address the human security needs of vulnerable groups (women, children, elderly) in crisis and conflict situations.

Health Systems in disaster and conflict situations and the role of the ICRC

Dr Mubariz Tariq
Detention Doctor
International Committee of the Red Cross
Kuala Lumpur, Malaysia

The Role of Muhammadiyah in Disaster and Conflict in Indonesia

Dr Rahmawati Husein
