Panel Discussion: Evolution of Legal Practice: How Technology is Creating Opportunities

Brief Synopsis: Technology is impacting every industry and law is no exception. Successful law firms are evolving by developing and incorporating technology to meet increasing client demands and diversify their offerings. There are exciting roles today within the legal industry that didn’t exist a decade ago. This is a presentation on the opportunities that have arisen within a top tier global law firm who is developing new business models, focusing on best delivery and gearing up for digital transformation through their own legal tech business ventures. You will hear from Bas Boris Visser, Global Head of Innovation and Business Change at Clifford Chance as well as other Clifford Chance professionals with legal backgrounds who are pursuing alternative careers.
