Allen & Gledhill Career Development Series

Smart Prompts, Smarter Lawyers: Using AI Effectively in Legal Careers

Artificial intelligence (AI) is no longer just a buzzword—it is rapidly reshaping the legal profession. For tomorrow's lawyers, knowing how to guide AI effectively is as important as knowing the law itself. This workshop introduces prompt engineering, a practical skill that allows you to turn AI into a reliable, time-saving, accuracy-boosting assistant.

Think of AI as your "super-fast but overeager legal intern"—able to draft, summarize, analyze, and review at lightning speed, but only as good as the instructions you give it. The real skill lies in knowing how to ask the right questions. In this interactive workshop, you'll work through real case studies and hands-on exercises to learn how to design prompts that turn AI into a precise, reliable, and responsible legal assistant.

PROGRAM HIGHLIGHTS

- Learn how AI is being used by lawyers today—and what's next
- Practice writing strong vs. weak prompts using real case studies
- Apply proven techniques: context-setting, specificity, and structured instructions
- Explore real-world legal use cases: contract review, compliance tracking, client advisory
- Gain skills to responsibly integrate AI into your career toolkit

---

Date: 18 March 2026, Wednesday
Time: 2:00PM - 3:30PM
Format: This webinar will be hosted remotely via Zoom. Login details will be sent directly to students who have successfully registered.

Important Note:

- This workshop is limited to the **first 50 students** on a first-come, first-served basis.
- The Attendance Policy applies to this event.

About the Trainer:

Yos Pang
Head of Product, AI, Privacy Legal,
Dipper LLC, San Francisco

Yos is passionate about enabling technology teams to move fast—securely and responsibly—and brings a strong foundation in international commercial transactions, privacy, AI, IT and IP law, and open-source licensing. She also brings a unique perspective at the intersection of law and technology, with deep experience in using AI to transform in-house legal practice.

In her current role, she leads legal strategy for a next-generation video AI startup based in San Francisco from 0-1 build to public launch. Proven leader in global legal operations, with expertise in scaling hyper-growth businesses and driving responsible AI and data governance practices. Prior to this, Yos led Snyk's and Meta's international legal team across Asia Pacific, Europe, the Middle East, and Africa, serving as a strategic advisor to leadership and supporting the company's global growth.

Yos has worked across multiple jurisdictions and cultures, with a special interest in scaling legal strategy in high-growth environments. She's deeply inspired by mission-driven teams, builder energy, and the intersection of law, product, and people. Outside of work, Yos acts as an advisory board member and recognized for strategic roles in the tech startup community and women-empowering organizations.
