

# The Project Finance Academy

## How to Structure and Document International Projects

**4 – 6 July 2018, Wednesday – Friday**  
Faculty of Law, National University of Singapore

### Overview of the Workshop

This 3-day practical “hands-on” workshop would take participants through the main legal considerations in structuring project finance transactions. Participants would gain an understanding of the real-life considerations and tensions that underlie key provisions of a typical Concession Agreement, and related Project and Financing Documents; they would learn how to negotiate and structure documents that anticipate and deal with potential problems. The focus will be on project finance practice as it happens in Asia and will cover a range of transactions common in Asia. Attendees will be expected to participate actively in role-play exercises that illustrate the evolving dynamics of a typical transaction.
