About Centre for Banking & Finance Law

The Centre for Banking & Finance Law (CBFL) at the Faculty of Law, National University of Singapore, seeks to generate scholarship and promote thinking about the vibrancy, robustness and soundness of the banking sector, capital markets and other financial services. Through the research our scholars undertake and the events we organise, we seek to create and share knowledge, to engage stakeholders in an exchange of ideas, and to enhance the appreciation of legal and regulatory issues. We aim to bring greater theoretical and analytical clarity to these issues, to examine their policy impact, and to be a catalyst for ideas on how to improve banking and financial systems at the national, regional and global levels.
