

# Law & FinTech Conference 2025

31 July to 1 August 2025

Wee Chong Jin Moot Court, NUS Law (Bukit Timah Campus)

The Law & FinTech Conference 2025 brings together legal scholars, practitioners, and regulators from Australia, the United States, the European Union, the United Kingdom and Asia—including Singapore, China, Hong Kong, South Korea, and India—to examine the regulatory and doctrinal challenges posed by technological innovation in the financial sector. The two-day conference will explore recent developments in payment services, central bank digital currencies (CBDCs), artificial intelligence in finance, decentralised finance (DeFi), cryptoasset regulation and insolvency, as well as fintech-driven transformations in banking.

Through a series of thematically structured panels, participants will critically engage with emerging legal frameworks, enforcement issues, and conceptual questions at the intersection of financial law and digitalisation. The conference provides a focused forum for rigorous academic exchange on how legal systems across jurisdictions respond to—and help shape—the digital evolution of finance.

**Keynote Speaker: Professor Henry T. C. Hu**

## ABOUT THE CENTRE FOR BANKING & FINANCE LAW

The Centre for Banking & Finance Law (CBFL) at the Faculty of Law, National University of Singapore, seeks to generate scholarship and promote thinking about the vibrancy, robustness and soundness of the banking sector, capital markets and other financial services. Through the research our scholars undertake and the events we organise, we seek to create and share knowledge, to engage stakeholders in an exchange of ideas, and to enhance the appreciation of legal and regulatory issues. We aim to bring greater theoretical and analytical clarity to these issues, to examine their policy impact, and to be a catalyst for ideas on how to improve banking and financial systems at the national, regional and global levels.
