### ABOUT THE EVENT

In this seminar, Dr Sanam Saidova will evaluate the experience of the UNIDROIT Convention on International Interests in Mobile Equipment 2001. The Convention is an international legal regime for the creation, registration and enforcement of 'international interests' in the aircraft, railway, space, mining, agriculture and construction equipment. The financing and leasing of these types of equipment, which can be accomplished by a secured loan, conditional sale or lease, can be a risky investment. The Convention seeks to reduce the creditors' risks and increase the availability of financing of such objects. After exploring the Convention's defining features, such as the concept of an international interest and the International Registry, Dr Saidova will critically examine the Convention's remedial regime.
