

SEMINARS ON LAW AND TECHNOLOGY (SLATE)

TRAIL is proud to present, in association with the Singapore Academy of Law (SAL), a series of Seminars on Law and Technology (SLATE). Building on the SAL Journal Special Issue on Law and Technology, each SLATE session explores a theme in the current debates surrounding the interactions between law and technology, by way of presented papers and discussions. SLATE will be of interest to academics, practitioners, and entrepreneurs who desire a more nuanced exploration of the legal issues involved in the creation and adoption of new technologies.

**SLATE V****GENERATIVE AI AND COPYRIGHT:
UNDERSTANDING INFRINGEMENT AND FAIR USE**

~~FRIDAY 3~~ WEDNESDAY 22 NOVEMBER 2023, 5PM to 6.45PM

~~EXECUTIVE~~ SEMINAR ROOM 5-4 (BLOCK B LEVEL 5), NUS BUKIT TIMAH CAMPUS

Generative AI applications such as ChatGPT, DALL-E and Stable Diffusion are presenting new scenarios that can be confounding to copyright lawyers as well as judges and policymakers. Professor David Tan discusses whether existing copyright doctrines can adequately address these issues and to what extent the Singapore Copyright Act 2021 is equipped to deal with these challenges. The seminar covers: (i) copyright infringement in both the input of works to train generative AI and the AI output in response to human prompts and commands; (ii) how the computational data analysis exception and open-ended fair use provision are likely to apply to these scenarios.
